- 5) A tool and die maker

Potential Standard Industrial Codes (SIC) would include: 3452 • 3450 • 3490 • 3540 • 5072

Location: NE Ohio and contiguous region

Company Background

Fastener Industries, Inc. (FII) came into existence as The Ohio Nut & Bolt Co. in 1905. FII owns two plants and one warehouse, all in the Cleveland area. The two plants contain cold headers, punch presses, drillers, tappers, rollers, and welders. In addition, it rents warehouse space in Chicago, LA, Toronto, and Atlanta.

FII has a history of successful acquisitions. In 1987, we acquired Joseph Industries, Inc., a distributor of lift truck replacement parts. Later, in 1998, FII acquired the Brainard Rivet Co. Brainard is a cold header shop, which manufactures rivets, and clevis pins, and is located in the Youngstown area.
